

EVERTON FAN ADVISORY BOARD STATEMENT

The Fan Advisory Board, and all its representative groups, share the shock and deep disappointment expressed by our fellow Evertonians and Everton Football Club at the ruling of the Premier League's Commission.

We have met with the Club this afternoon to discuss the decision and the Commission's report that was published today.

We fully support the decision to appeal what we believe to be a wholly disproportionate and excessive sporting sanction; a punishment that has been handed down with no regard for supporters.

Since the ruling was published, Evertonians have already united in their approach to opposing what we believe is an unjust and unfair ruling. We encourage this passionate response to continue and will be convening a meeting with supporters in the coming days.
