

# EVERTON FAN ADVISORY BOARD

## **Fan Advisory Board Statement**

We note the Club's recent statement regarding match day ticketing. However, we must make it clear that the Fan Advisory Board (FAB) and its represented groups, including the Everton Fans' Forum, Supporters' Clubs Committee and Disabled Supporters' Association, were not consulted on either the substance or the timing of these changes.

Whilst we understand the Club's efforts to address the growing concerns around ticket touting and misuse, and also that not every decision will receive universal support, we believe that any decision directly affecting supporters should follow a proper process of consultation. That means engagement that is timely, transparent, allows for meaningful feedback, and ensures supporters' voices are genuinely considered.

We are not only disappointed that this process was bypassed in this instance, but also concerned that it follows so soon after the recent launch of a new membership scheme.

We have raised our concerns directly with the Club and have requested an urgent meeting to discuss both this decision and how future consultation with fan groups can be strengthened and upheld.
